to me

Hi Julie,

We've been swamped! Trying to get to all of your requests.

7-29 2101, 585.95 acres, PF and MUR

Most of these could meet the minimum size dwelling standards. In PF , it's 240 contiguous acres. In MUR, it's 320 contiguous acres and the person residing in the dwelling has to be principally engaged in the farm use of the land, so they'll have to establish the farm use first or show that they are moving a farm operation to the new property.

Let us know if you need anything else on these.

Hilary
