FROM A FIST FULL OF DIRT... TO AMERICA'S OUTDOOR BRAND

Many companies can say they started from the ground and worked their way up. Our story goes even deeper—with a fist full of dirt and the roots of a 200-year old southern oak.

In 1986, Mossy Oak creator Toxey Haas had the vision to take a handful of Mississippi dirt, sticks, and leaves and transform it into a brand new type of camouflage. Since that day, the Mossy Oak brand and family of companies has become a symbol of the outdoor consumers' obsession with getting closer to nature and living their best life outdoors.

For the over 47 million outdoor consumers, Mossy Oak's simple yet collective brand mission resonates due to our corporate values, authenticity, and people. If you

love the land and the outdoors, Mossy Oak is the brand that defines that obsession; it is a brand that you are proud to feel connected to.

In a recent survey of outdoor brands, 97% of respondents recognized Mossy Oak, and for 56% of respondents we were the outdoor brand that best represented their lifestyle. Our market share in the camo space is nearly 2-to-1 over our nearest competitor, and we are honored to be dubbed the "Official Camo of Conservation" due to our company-wide commitment to conservation organizations and causes, and efforts such as our Mossy Oak Properties National Day of Conservation.

As our brand approaches its fifth decade as a company, it continues to foster goodwill with consumers and continues to advocate for the goodness of the outdoor lifestyle. The Mossy Oak brands' awareness and strength continues to bring value and a competitive advantage to those associated with it.

We'd be honored for you to be a part of our family tree!

THE MOSSY OAK PROPERTIES STORY

In 1999, Mossy Oak's founder Toxey Haas and his close friend Chris Hawley, a land broker by trade, decided to open the first Mossy Oak Properties office in Livingston, Alabama, the first of its kind in the land brokerage business. As a result, buyers, sellers, and brokers alike began gravitating to the fledgling company. Haas and Hawley knew they were on to something.

In September 2002, Mossy Oak Properties sold its first franchise, and the growth since then has been nothing short of phenomenal.

To date, the Mossy Oak Properties network encompasses a broad

range of independent land brokerage offices across the continental US and Alaska, and we are not slowing down anytime soon. We are the largest land brokerage network of our kind in the country; wherever rural and recreational land is sold, is where we will be.

The strength of the Mossy Oak brand is at the center of the success of the Mossy Oak Properties network. When potential clients see a Mossy Oak Properties ad in a magazine or a for sale sign on a property, it is the Mossy Oak icon-- the most trusted in the outdoor world - that catches their eye and leads to that first contact. As our franchisees can attest, the brand alone creates a plethora of opportunities that simply would not exist if they were an independent broker.

The future is bright, and we are completely committed to creating increasing value for our network of land specialists via our national marketing campaigns, services portfolio, and emphasis on technology. Our growth will be predicated on continuing to associate with quality land specialist that share our vision and values.
